

## Holkham Parish Meeting

NNDC July Report 10/07/2020

Hello everyone,

Meetings have continued at NNDC using Zoom and although there have been occasional drop outs, in the main all has gone well. The guidance that has been given means that the use of virtual meetings will continue for some time.

The Last Full Council meeting adopted two motions :-  
'Black lives Matter' and the second in support of Local Farmers in the production of food, and Animal welfare, in the UK., maintaining standards in the event of Brexit. ( the full motion within the minutes on the NNDC website).

The NNDC Website is reasonably easy to navigate and has much info on Coronavirus.

- Assistance for businesses
- Emergency PPE
- Victim Support
- Live Chat
- Car Parks Availability
- Lock down Advice
- UK Government Guidance
- Vulnerable People
- NHS Health Advice
- plus others

Hopefully most of this is now old news, but with other countries suffering spikes in cases, it is available if needed.

So hoping that we can continue to open things up a bit, finance provided by the Government for Social Distancing reminders and Hand Sanitisers are appearing in, heavily foot trafficked areas/shopping centres with a '*You are Welcome*' strap line. '*We are Good to Go*' is a certification to provide the public with the confidence to get out and about and do some shopping.

The process helps businesses to provide a safe experience for residents and visitors.

NNDC have decided that their Play Grounds will remain closed, the government guidelines being almost impossible to carry out. We're looking into the use of a fogging machine which have a 25 day guarantee against re infection.

The Car parks are to have the height restrictions removed to allow motor Caravans entry.

The Government has issued guidance on the opening of swimming pools but the ramifications have not been digested yet to allow a date for the Splash to re-open.

On a lighter note the Baggott Goats have been re introduced to the Cliffs at Cromer and by the look of the number of youngsters, they have not been social distancing.

I hope that you can stay safe, take no chances.

Peter
