

Holkham Parish Council – Clerk’s Report 12 July 2022

A bit of a problem with Zurich Insurance – the original cheque that was sent in May, seems to have been lost in the post. In order to keep the insurance valid, it was necessary to get a new cheque signed, which Elaine & DJ kindly undertook.

Talking of finance, I haven’t had any recent letters from Barclays, so presumably they have accepted the last forms that we completed in May and DJ is now back as a signatory! That said, Barclays have not been the speediest correspondents in the past!

On the above subject, I cannot supply a current bank reconciliation, because at the time of writing I have not yet received the bank statement for June. Hopefully, this will have arrived by the time of the meeting.

As you know, I am very much (personally) against the idea of 1200 cyclists being allowed to use our local roads (which we have paid for by our local Council Taxes) as a racetrack. I suspect that the usual radar equipment that is used to trap motorists is not in evidence on the day, despite the fact that many of the participants appear to be exceeding speed limits. Outlaw Triathlons Ltd from Nottingham were once again doing this on 3 July. One thing that I will say in their favour, however, (and I have noticed it on previous occasions) is that the extensive signage that is erected for the competitors, plus warnings to the general law-abiding public was all removed by the end of the day.

That’s all this time – have a good summer!
