Natural England - Nutrient Neutrality

A competitive tendering process was undertaken to deliver a mitigation strategy for the Broads and Wensum catchments, Royal Haskoning have been appointed to the role. The consultants provide regular updating notes which give commitment to completion of a short term strategy no later than February 2023. Royal Haskoning have been involved in the South West on similar problems.

New Affordable Homes

Housing associations provided 160 new affordable homes in 2021/22 - 64 affordable rent and 96 shared ownership. Our development pipeline for 2022/23 is unfortunately a lot smaller. We anticipate 52 affordable homes during the current financial year.

The reduction is due to:

Being at the end of the current local plan with few sites left available to provide section 106 affordable homes.

A large site in Stalham which will provide 101 affordable homes including 61 extra care flats is delayed due to the impact of Nutrient Neutrality.
