

Clerk's Report - 8 September 2026

There will be an election next May, and it would be helpful if we could try to get nearer to our official number of Councillors , which is seven. We currently officially have six, but one of these has not attended for some time. Any ideas that you have to boost numbers would be helpful!

I have asked the Estate Office about the thatched pump house and have had the following reply: "The pump house has been surveyed by our building team; the next step is for it to be incorporated into their schedule of works. When I know more specifics, I'll let you know but please reassure the Parish Council this is in hand"
